

ODIN RAPID DEPLOY VIDEO MONITORING STATION

Take command of your security assets with Odin's RDVMS go-kit. Receive real-time surveillance data and insights anytime in a compact solution.

The Odin Rapid Deployment Video Monitoring Station, is your solution for quick access to command post intelligence in the field. With this cutting-edge kit, you'll receive real-time surveillance data and insights from across the venue, no matter where you are.

Ideal For Use By:

- Security staff
- Producers & stage managers
- Operations personnel

The RDVMS Go-kit is packed with features that will make your operations smoother and more efficient than ever before. You can display both camera and metric data, including license-enabled guard locations, crowd density data, crowd flow rates, IOT sensor data, emergency gate lock/unlock status, and more. With this wealth of information at your fingertips, you'll always know what's happening on the ground, which means you can make informed decisions faster.

Highlighted Features:

- View all sites at once in our user dashboard
- Detailed audit logs
- Granular user permissions
- Firewalled cameras
- Automatic remote software updates
- Privacy screening
- Two-factor authentication and federated login systems

Upgrade Options:

- Internal LiPo4 battery
(for self-powered option)
- Rapid Deploy Remote Communications Kit

** Hardware kits available for purchase or lease. All analytics are licensed separately.*
